FLEX ZAPPICATOR

Your Flex Zappicator is a magnetic accessory, powered by the AutoZap 5 Hulda Clark Zapper.

1. Plug the included cable into your AutoZap 5 until it is fully seated, and attach the other end of the cable to the Flex Zappicator.
2. Place the top Label side towards food, or the body. Place over any part of the body that needs soothing – head, back, chest, stomach, legs or feet. Pets can also be included in a zapping session.
3. Select the Green Zappicator mode on your AutoZap 5 to operate your Flex Zappicator setting. The Green solid mode runs for 15 minutes (food) and the Green flashing mode (body) runs for 30 minutes. They both shut off automatically.

Feel free to cover your Flex Zappicator with a comfort sleeve, but be sure to identify the North Pole Label side.

For more information, please see www.BestZapper.com/faq
